

It is a mountain rich in waters, both
streams and

springs. It is physically and geographically
a centre, a
sort of knot nearly uniting what have been
happily
termed the "Outer" and "Inner" ranges of the
Bakhtiari
mountains, and it manifestly divides the
country into
two regions, which, for convenience' sake,
have been
feliculously termed the Bakhtiari country and
Upper Elam,
the former lying to the south-east and the
latter to the
